## Eclipses Within Eclipses: Great Reset Instructions Arriving in April

*Why is the coming solar eclipse on 8<sup>th</sup> April of such significance? Your favourite reporter, Djwhal Khul, has bagged a scoop for us here at the Galactic Times.*

Within the Sirius system is a blue planet, which today we only know as, "Planet X". It is about the size of Uranus, covered in vegetation, and can sustain life. Some of us here on earth have incarnated there from time to time.

Planet X has an energy signature not unlike Black Moon Lilith. It is very dark! Technology is great on Planet X. But so is Strife. It is a Planet of Great War.

The people in charge of that planet have controlled and dominated earth's solar system for some time. The seeds were sown as early as 18,000 BC, but that is a story for another day. You may know of the ruling faction on Planet X by the name "Dark Brotherhood of Sirius".

On 21<sup>st</sup> April 2022, the Dark Brotherhood's grid of control and hate was disconnected electromagnetically from earth. The dark-matter-grid was closed off during a ceremony including three humans on top of Ta' Ghammar Hill, Gozo. That afternoon, the entire blessed Hill was covered in a Saharan Dust Storm.

Four months later, on 22<sup>nd</sup> August 2022, the Age of Aquarius started electromagnetically when a new Spirit-Light-Matter bridge was put in place across the gap from Sirius to Earth. Thus began, "The Age of Infinity".

## The Closing Days

As you readers know, we are closing out an epoch in human history. The last 12,000 years have been rather dull.

This year of completion, 2024, corresponds with the imminent Ascension of this Quadrant of the Galaxy.

Our reporter at the Galactic Centre suggests the Angelic Realm are about to accelerate Light across this Quadrant of the Galaxy.

He says, "Many messages are being sent to the sacred sites on planet earth in preparation".

## Open for Discussion

We investigated Walter Cruttendon's fascinating work at the Binary Research Institute recently. Is he right in saying our solar system is gravitationally linked to the Dog Star, Sirius?

## In Other News

There are now three humans living on this planet whose souls have Ascended from the earth plane.

[Peace is now Possible.](#)

## Future Features

Some exciting articles coming soon.

- The Pleiadean High Council will describe the coming times.
- We expose the radical transformation protocol coming from Orion's Belt.

## Many Souls Leaving Earth for Home

Many souls are now leaving earth and returning to their home worlds. They had soul contracts and other agreements in place to return to their Mother Home Worlds in 2024.

Their intention was always to make the Ascension from there. They are going to continue their work elsewhere.

For those feeling the loss of loved ones keenly, remember they are always with you. As close as your heartbeat!

## Eclipses Within Eclipses

The Dark Brotherhood no longer control the energy equations of planet earth. They have relinquished them. We are preparing for the Jump to Light.

Whilst a solar eclipse covers part of the USA on 8<sup>th</sup> April 2024, a greater shadow is covering earth from the Sirius system. A concurrent solar eclipse is occurring on Planet X.

With all the style of the Universal Law of One, we are having an eclipse in conjunction with the eclipse in Sirius.

Planet X has two moons. One is made of ice. One is of rock. Planet X's sun is being eclipsed by the rock moon.

The eclipse is a Galactic message of intent. Planet X is about to Ascend. It is time for all in this Quadrant of the Galaxy to move up. The communiqué from Sirius says, "Here we go. We are all to go Upwards!"

We cannot comprehend the magnitude of what is happening. The entire Quadrant is about to Accelerate drastically, and we are but one small cog in that wheel.

Earth is energetically 'downwind' of the Sirius system and 'deeper' in the Universe. Time is slower here and energetic effects from 'above' more pronounced.

The events taking place in Sirius span a period of around five months on Earth, from January to May 2024. They are associated with the ending of the old period of domination and control.

This is a time to take care of self, close friends, and family. Prepare for the Shift by Being in The Heart.

Within months of this eclipse, the Acceleration will begin to be felt. That is more like a message coming from Sirius A. We will return to that in April.

## Energy Signatures from Sirius

What energies are coming through from Sirius during the period January to May 2024? You will be reassured to know we have assessed these energies carefully.

A good portion of the energy is intended to cut some things off. For a few, it will be the end of their lives here. Time for another reincarnation. On earth or elsewhere in the Galaxy.

For others, there will be a great surge in energy. They will experience returning to their True Nature of beauty and divine love.

For the world, certain energetic equations will be deleted. They will no longer operate, or they will reduce greatly in significance.

So you can understand what is meant by this, the energy of hate may be cut, or its magnitude reduced.

## Visiting the Great Pyramid for Easter?

Many messages are being sent to the sacred sites on planet earth in preparation for the Shift.

As our cover story today explains, one is being sent from Sirius. It contains messages for every member of humanity. The code of each modulated for the individual in question. These can be received through the heart chamber.

Our researchers in the Stars suggest the 12<sup>th</sup> of April is the closing date for the bulk of the messages sent from Sirius. Thus, 26<sup>th</sup> March through 9<sup>th</sup> April is an interesting time to be at the Great Temple.

The Gods are currently calling the Great Pyramid, *"The Temple of Darkness."* They say April 8<sup>th</sup>, 2024, is a very good day to be inside.

Anyone there will be able to receive, transmute, and embody the messages being sent through for earth.

There will be reset instructions contained in the energetics. For the Planet. For Her Ascension. You will be able to tune into these.

However, there are specific harmonics being sent through which cannot be transmuted by the human heart. They require non-human intelligence to decode. Therefore, lying down within the Temple of Darkness is not a good idea in this timeframe.

This does not mean all hate will disappear from the world. It may simply be a 5% reduction in the energetic support for "Intentions of Hate". You may find less resonance in the external world for this intention. It would become tougher to act successfully from a hateful place. Physical reality may be less tolerable of it, thus making it harder to manifest.

Here at the Galactic Times we believe certain emotions will not be as successful post this transition, including Hate, Turmoil, and Manipulation.

Learning and "Rebound" events will also accelerate. If you are someone generally operating in the light, when you have an energetic low it is more likely you will be buoyed or return to optimum performance faster.

In summary, the number of people leaving earth, or shifting into higher frequencies, will increase. This is all in preparation for the Galactic Activation taking place around 21<sup>st</sup> April 2024.
