Radical Human Transformation Protocol Coming Soon from Orion's Belt

Today our friend Djwhal Khul has projected some news to us from the depths of Orion. What is happening out there for the human family?

Well, readers. Gosh. Prepare yourselves, we have a radical new human protocol being sent down through the Star Gate of Orion. A Protocol for the next 24 Years of Christed Light.

What is a protocol you may ask? Well, imagine a great musical organ, orange and bright. One which does not need a musician to play. It works on coded sheet music, flowing into the front of the machine. Any tune can be inserted, and the organ reproduces it exactly.

Now, the machine that creates realities works very similar to this. Protocols are like pieces of sheet music. Once a protocol is changed, the reality alters.

Protocols are changed frequently. Without humans knowing. But we are entering a time when people on earth become co-creators, crafting their own reality in partnership with the Divine.

This September 2024, a new protocol will be applied to the reality making machine of planet earth. It will begin to alter the earth for humanity, slowly at first. Everyone will feel something shift, if only momentarily.

The protocol is being sent 'down' from Orion, the God of all human matter on Planet Earth. We spoke to a Service Engineer working on the project, "*The Orion protocol for humanity*" Cont on page 2.

Open for Discussion

Is it the case that there is always balance in the Sirius System? Our recent report into Planet X highlighted the need to deepen this.

Sirius has the reputation of being earth's companion star, linked gravitationally to our own solar mass. It also has the reputation of always being in balance. Light and dark.

Legend implies there are dark and light worlds across the Sirius system. Once at conflict, they are now at peace. It is believed that all souls coming through to earth from Sirius today, are here to resolve in detail the issues that remain across that vast gulf of space and time.

If a dark planet in Sirius were to Ascend today, would that affect earth? If there is always balance in Sirius, does that mean that earth always balances light and dark too? If so, does this mean that earth must ascend if both light and dark planets in Sirius do?

Three people whose souls have Ascended and are still alive on planet earth are enjoying life to the fullest.

Future Features

Some exciting articles coming soon:

- The Pleiadean High Council will describe the coming times.
- Chatting with Thoth the Master.

Co-operation First

The template of humanity which the Galactic Union of Light (GUL) put in place around 12,000 years ago came from Taurus. It remained largely unchanged all that time. The template was limited by the level of competition it was designed to sustain.

The GUL's new template from Orion will surpass it. It will allow humans to co-operate for the first time in an aeon.

Transformation Protocol from Orion

Cont. from page 1.

includes massive trees, spectacular sunbursts, rainbows, and unicorns. The Law that comes with the Protocol is Divine. This includes the Law of One. We harmoniously unite in one galactic family."

This Law fits with Orion's intention for the human family. Djhwal spent some time with the God of All We Are. He looks like a blanket of blue stars against the black sky. Encompassing space. Infinitely wise. He holds the energetics and the divine love needed to sustain 5 galactic star nations. Orion encompasses the earth, whether it is on fire or in light. He celebrates the animals. He owns them. He created the gull and the crow, and the king of all, the lion. He sits in the albatross, and there he sees all.

Orion is the keeper of the keys of mystery for our earthly planet. He left a message for all its peoples, "Within your time channel of 2024, I will emit certain energies for the earth plane. These will radically alter your reality. The universe is

waiting for this to happen. Many cogs and many wheels turn this year. Yours is about to go ping. To ring out loud after thousands of years.

This is our destiny. This future of great times. We begin again. This time together. We begin the fight towards light. The brightest light you can imagine. We will win. You have been through the toughest time. You have been suppressed and trodden upon. This ends now. It is time for a new Protocol. A new You. A new Family.

A new nation of human. We pass down our rights and our laws this year. From a Stellar Nation approximately 2,000 years ahead of yours. This protocol will formulate new laws on your planet.

I see a million days ahead. I can see the past. Without doubt, my dream lasts a million years. I want a new world. A united peoples. Within a million years, I dream of a galaxy emitting one single word. Together. As one."

What Does the New Protocol Mean?

Let's begin with law. Divine Law is a definite update in the new protocol. This law is coming directly from the Galactic Core.

The protocol also contains a new human template. The existing human template dates around 12,000 years and originates from Taurus. Orion gave us a copy of the new human template to examine. We noticed at least three main differences.

The first is "Human Luminous." A big upgrade. Apart from the odd exception, this has not been a possibility for the general population for over 12,000 years. What does it mean? The eye-in-the-head can expand to an extent that the human can disappear to light. Expect up to 12,000 people to make this transition in the next 24 years.

Psychopathy may disappear. The template does not feature it. As with all specific Cont. on page 3.

Looking for a holiday destination in April?

The month of April 2024 is an interesting month to be on the island of Gozo, Malta. Gozo is the northernmost isle within the Maltese archipelago.

According to Francis Aloisio, the late researcher into the Maltese temples, *“Gaudos is the old name for Gozo. During the time of the Spanish domination, the island was simply referred to as gozo; joy in Castilian.”* There is great Joy associated with the happenings of April.

During this period the human protocol from Taurus will be removed from the reality making machine. The control mechanisms across the planet will be turned off. I.e.

the Geomagnetic Reset Switch will be hit. At the same time, a portal will open to allow dark energies to leave.

This moment marks seconds before midnight on the Reset Clock of earth. There will be no going back.

Expect a rocky road ahead. We at the Galactic Times do not yet understand what is going to occur between April and September 2024. But something is happening.

What Does the New Protocol Mean?

Cont. from page 2.

changes, this specific update may not manifest overnight. Considering levels of psychopathy, karma, etc it may take a while to redistribute the energies involved. The human family could share positive intentions within a relatively short period of time.

The third aspect is the desire to return to nature. The template is designed around a more positive relationship to nature. We are more likely to cooperate and integrate ourselves within natural systems. This will clear much karma across the planet and will accelerate Ascension globally.

What Happens to an Old Protocol Once Removed?

Toth decided to support us to better understand the life of templates. *“Once they have served their useful purposes protocols are returned to dust”*, he said. He showed us the process.

“The template is burned in the eternal fire of life force. The dragons watch. They observe the burning fireball of energy. Within the eternal fire, reality is dissolved. Turning all the information of the template into fire and dust.”
