Light Activations from Mnajdra Summer Solstice

It has come to our attention there is a portal opening, the beginning of a New Era on Earth.

During the Summer Solstice in the Northern Hemisphere, two of our reporters took part in the sunrise ceremony at Mnajdra temple in Malta. Mnajdra was a gigantic star portal in times gone by, before the crash of our previous earth civilisation around 12,000 years ago. From that portal, one could travel through space-time to any location in the Galaxy.

Today, we do not have access to the portal, as we do not have the technology or the human activations to allow us to do so.

What did happen during the sunrise was that the Sun beamed down codes and activations for Planet Earth. These activations included:

1. **The Wisdom Carriers of the World are set to rise.** There is now a major activation for all Native Peoples and their Natural Lands. The coding is intended to support the Native Peoples' messages to return to prominence in our world. Also, to encourage other groups to turn to them for their essential teachings, ancient knowledge and wisdom.
2. **The Gods are Coming Down to Earth.** As explained in the "Opening the Mnajdra Star Portal" article on this page, the Gods are expected to return within the next 24 years. This is an aspect of the Divine Plan that is now set in motion.
3. **The Rise of The Christ.** Much mystery remains surrounding this message. Is the Christ coming through one man, a woman, a group of people, the whole of humanity, or all of the above?

Opening the Mnajdra Star Portal

The star portal, once located at Mnajdra temple in Malta, is currently inoperable. What is being built by the sun's solstice coding is the energy to allow for the God's* to return to earth. It is the God's who can restart the portal to its full operational state.

With each person who visits the site, more energy is gained by the God's who would return. They are waiting for the human will to permit them to travel through the vast distance in space, from their Living Room to our reality.

Considering current conditions on earth, and the current desire for planetwide reinvention, the God's estimated time of arrival sits within a period of 24 years, between now and 2048.

Our job as humans is to answer their call, to build sufficient support for the planetary reinvention that would occur on their return.

Universal Time of Renewal

During the Mnajdra ceremony on 21st June the divine plan revealed that we are on the cusp of the Universal Reinvention that so many souls have been craving. It is almost time for the universe to change overnight. In an instant, the frequencies will shift, towards a more 'liquid' reality, one more permeable to our thoughts. This move to light has long been prophesised and will eventually enable our earth to become Liquid Light.

In Other News

Three humans whose souls have ascended are holding the earthplane at an OverSoul level. They are ok. Would you like to join them create a new world?

Rebirth of America

One of the images that came through the Mnajdra star portal was the Great Eagle. A bird synonymous with the country we now call America. We are within the cusp of the Pluto return for that great country, founded in 1776. Now is a

time of Great Rebirth for that Nation. The coding of the Great Eagle suggests it is time for America to Arise.

Pleiadean High Council's Message for Humanity

Now is the time a great many of you have waited for. For some, your entire lives. Light is about to accelerate within your quadrant of this Galaxy. Drastic change is upon us all very soon.

We cannot tell the exact timescale for change to hit the earth. Only you as a human family can select the exact time for that. But it is immediately upon you.

This is a time of great hope and excitement across the Galaxy. You are about to be accelerated. Each one of you.

Your focus, we suggest, ought to be your heart. The energies that come through this area of the body are key. Hold onto your sense of love. For yourself and for others. There is no need to separate love into love for self and love for others. You still speak of love.

You will all share in this mass process, the ascension of planet earth. Each of you will play your part. You may come from different cultures,

different geographies, different points of view. You are meant to disagree. And you are meant to forge alliances now.

To begin the process of ascending, we ask you to bridge the divides between you. To close the gaps between you and your greatest 'enemies'. We ask you to consider, there is no difference between you and them.

You all come to this world from the same place, from a place of love. Please consider, as we do, that none are 'lost'. All are exactly where they need to be.

The Divine Unification calendar, also known as the Reset Clock, is about to reach midnight. As we approach this time, each person on earth is in precisely the right place.

We ask you to take these words, and to find your place in them. To love and accept all.

Light Activations from Mnajdra Summer Solstice

Cont. from page 1.

4. **Ascension Codes for Humanity.** Each of us has our own Soul Mission on Earth. The primary activation codes received during the solstice were for those participating in the First Wave of Global Ascension. This means around 500,000 people are directly affected.
5. **The Rise of the Women.** An exciting activation to be sure. Many of our women are to be elevated in their understanding and appreciation of their power. It is the time to accept the gifts of their Divine Lineage. This relates to something [Alenka wrote](#).
6. **Blue Templates of Christ.** The attending humans at the ceremony each got a blue template.

*Comment by the female editor: Beloved female readers: God's includes Goddesses. Please don't let the English language make you a minority, which you certainly are not and have never been. We choose our own reality. Thank you for your attention and love for yourself.
