

Planetary Reset 2024

Thoth, the Master of Energy has decided to write some guest articles for this, the sixth edition of the Galactic Times. He is coming straight to you from the centre of Planet Sophia ♀.

For those of you familiar with [The Emerald Tablets](#), Thoth is letting us know, dear reader, that he is now The Dweller. One only passes through the doorway to eternal life with his blessing.

He has come to us to share some news. He pressed the Reset Switch of Planet Sophia for his birthday. At that point, we entered the New Reality that we are all looking forward to. It is the time of accelerated progress for Humanity. This reset took place in September 2024.

It followed the Angelic Realm accelerating light in this quadrant of the Galaxy during August. Things are certainly looking up for the inhabitants of Planet Sophia.

Thoth wishes to let us know some of the key aspects to expect as we move from what is traditionally called a “third-dimensional reality” into a fully fourth and fifth dimensional one.

Firstly, we move through what is known as a Shattering and Reforming phase of growth. A process where Reality shatters, scatters, re-forms around clusters, and then re-merges. Before disintegrating again. Reforming, disintegrating, and so on. Like the breath going in and out. Deepening each cycle. This is the key driver of our growth.

As individuals, the design is that we deepen our awareness of the dimensions with each breath. We learn how they interconnect, and how to bring them into Reality. Each of us the marshal and shepherd of change. *Cont. on page 2.*

♀ Correcting Terms

Mother “Gaia” ascended from this plane of existence in 2021; as part of the transition to a multi-dimensional reality both our Sun and our Planet have new Souls.

In our Heavens, they sing our planet’s name, “*Sophia*”.

Her role is to guide and hold us as we change from a very “third-dimensional” reality to one full of Light and Wonder.

The Age of Infinity

In 2022, a portal to Infinity was opening. It began on 22-8-22 (8-8). Astute readers may have noticed our Galactic Times symbol is the intersection of Infinite Flows of Divine Love.

The portal was opened at Glastonbury, England. As part of this ceremony, Yeshua and Mary Magdalene planted the seed of life into our planet. This seed will give birth to a new tree of Life. This tree will inform all Realities through all of Space-Time about our progress here.

This process can be unsettling and painful. Or full of joy. Or a combination of both! As we move through the cycles, we bring to the fore some of the thornier and more difficult issues we may have hidden or ignored in our consciousness. In the healing & transformation of these we develop a fifth dimensional reality.

Longer-term, this pulsing sets in motion a divine process. To return each of us to our Star Family. As we move through the levels of consciousness, we naturally attract and pull to us other members of our Galactic Tribes.

There are twelve Galactic Families of Light. Each of us has a connection to more than one. As we develop our awareness, a new society forms, developed by our tribes and imbued with cosmic and divine love.

The Year of the Dragon

The year 2024 is the closing of a certain Age. A time of great disruption is upon us. The energies of the Dragon are set to rise. These are clarifying and purging. All untoward darkness will be removed from this Reality. Slowly at first. The fires of the Dragons cleanse all.

Reality Shatters

The Reality of our plane of existence Shattered into millions of pieces between 22nd and 26th December 2024. In time with the Jupiter-Saturn square.

There is no return to the Reality we were contained in.

Each of us is now afloat in the cosmic ocean of love.

Outer events may be very challenging at this time. We are asked to face the aspects of ourselves we have not previously acknowledged. Reclaiming these fragments will return us into Light.

Symbolism

As well as the dragon energies arising, there are other animal energies at work on us.

The snake is experiencing a resurgence. The activation of dragon energies worldwide allows for a greater presence of our friend and long-time companion, the serpent.
